

Basis V

hydrophobic

Q functional

ONV functions*

IOL functions

Distant function

Basis function

Protective function

Blue filter function (optional)

Mesopic function

Aspherical function

Features

One piece, foldable intraocular lens (IOL), hydrophobic acrylic. Also available as **preloaded**.

360° Cell Barrier

▶ Optimized Protection against PCO

UV Filter

▶ Retina Protection

A-constant: 118.7

Haigis-constants: $a_0 = 1.32$; $a_1 = 0.400$; $a_2 = 0.100$

Manufacturer: GEMMA Medical AG, Switzerland, CE 1250

Optical power:

Basis V clear	Basis V yellow	Basis V clear preloaded	Sph.	Steps
B5AD00	B5ADY0	B5AB00	0.0 D to +9.0 D	1.0 D
B5AD00	B5ADY0	B5AB00	+10.0 D to +30.0 D	0.5 D

*ONV functions: The five functions of the human eye which are required to achieve optimal natural vision (ONV) (see rear page)
